Acqua Plus is located 5km from Hersonissos and just 30km from the city of Heraklion, adjacent to the Crete Golf Club.

The water park is divided into two sections that are interconnected. One section caters to adults and features a plethora of high-adrenaline extreme slides, while the other section is designed for children.

CRETAQUARIUM

The creation of a large and modern sea Aquarium in Crete was a challenge as well as a vision not only for the local research society but Cretan society as a whole. The impressive response from the hundreds of thousand annual visitors to CretAquarium justifies the painful attempts that were made by the former Institute of Marine Biology of Crete as well as the current single body for marine research in the country -the Hellenic Centre for Marine Research. The Mediterranean Sea preserves an impressive biodiversity, gave birth to ancient civilizations and welcomes millions of visitors each year.
